

Dear partners,

We would like to bring to your attention "SHOWplus Special Effects" company, which is one of the main manufacturers of equipment for creating special effects on the market of Ukraine, Russia, Eastern Europe, and Central Asia. Our company offers you the next variety of equipment produced:

- Low fog machines (Dry ice machines)
- Confetti machines
- Foam machines and foam guns
- Dry Ice Makers

Most of the nodes are of our in-house fabrication with QCD inspection (technical control department). Components that we ourselves do not produce - are purchased, exclusively from reliable suppliers with whom we have been working for many years. All equipment is tested for defects and then eliminated if any. The basic principle that guides all without exception the employees of our company, is the clarity and quality of work.

«SHOWplus Special Effects» guarantees an individual approach as well as attractive prices in case of contractual cooperation.

For cooperation, please contact Dmitry Talanov, Business Development Manager:
